(Fish must be picked-up within the half-hour scheduled and released into your pond immediately) Failure **to pick-up fish on time results in forfeiture of order!**

**Delivery to your pond:** For fish 10" to 12"

**Sunday, May 20<sup>th</sup> in the afternoon.** Please provide very detailed, written directions to your pond with your order form and payment. Include in directions: your name, town, mileage from turn-offs and intersections, road names, landmarks, and description of property.

The Merrimack County Conservation District is taking orders for New Hampshire raised, disease free rainbow and brook trout. By ordering this spring, your trout can adjust to your pond over the summer and grow to become a tasty feast for you and your family. Some general guidelines for stocking your pond:

- A ¼ acre pond with a depth of 8 ft. that is full all summer with fresh water may support 100 fish
- Brook trout need cold water (approximately 45° to 60° F.)
- Rainbow trout tolerate warmer temperatures
- Best pH range is 6 to 9 (brook trout okay at lower end of range, rainbow okay at higher end of range)
- Use of floating trout feed is recommended, especially for newer ponds
- New ponds should not be stocked until 1 year after construction
- Mixing of rainbow and brook trout is not recommended
- Place a screen at the pond's outlet to prevent trout from escaping

### Trout Order Deadline May 11, 2018

Please return order form with check payable to: Merrimack County Conservation District,  
10 Ferry St, Suite 211, Concord, NH 03301
