The Merrimack County Conservation District is a non-regulatory public agency that works in partnership with the USDA Natural Resources Conservation Service (NRCS) to help land owners and users in Merrimack County manage their soil, water, forest, and other natural resources.

We serve residents, town officials, educators, members of non-profit organizations, and others in the 27 towns that make up Merrimack County.

Mechanical Soil Aerator

Merrimack County Conservation
District

Conserving The Natural Resources And
Cultural Heritage Of Merrimack County

Tel: 603-223-6020

Merrimack County
Conservation District
also rents:

- **Compact Constant Head Penetrometer (aka. Amoozometer)**
- **Narrow Wood Ash/ Lime Spreader**
- **Skidder Bridges 16' and 20'**
- **Soil Pemetrometer**

If interested, please contact the district at 223-6020 or email info@merrimackccd.org

The mechanical aerator is designed to alleviate soil compaction, improve nutrient retention, and promote root growth.

The aerator mechanically removes small cores of soil which reduces water requirements and the chances of water run-off in the fields.

When soil is compacted, it is harder for plants to establish a healthy root system and limits the movement of air, moisture, and fertilizer through the soil.

Demand for the aerator has been higher than expected. If interested, please contact the district at 223-6020 to be placed on the waiting list.

Rental Rate:
\$100.00 Rental fee,
\$10/ Acre for Each
Additional Acre Over
10 Acres.
