The Merrimack County Conservation District is a non-regulatory public agency that works in partnership with the USDA Natural Resources Conservation Service (NRCS) to help land owners and users in Merrimack County manage their soil, water, forest, and other natural resources.

We serve residents, town officials, educators, members of non-profit organizations, and others in the 27 towns that make up Merrimack County.

Merrimack County Conservation District  
10 Ferry Street, Suite 211

- Narrow Wood Ash/ Lime Spreader

If interested, please contact the district at 223-6020 or email [info@merrimackccd.org](mailto:info@merrimackccd.org)

- ◇ Portable skidder bridges are now widely accepted as a best management practice for controlling non-point source pollution associated with timber harvesting operations.
- ◇ When properly installed, used, and removed, skidder bridges minimize stream bank and stream bed disturbance as compared with alternative devices, such as culverts or poled fords.
- ◇ Portable skidder bridges are also economical because they are reusable, easy to install, and can be transported from job to job.

- ◇ In addition, these bridges reduce the occurrence of sedimentation, channeling, and any degradation of aquatic habitat, while allowing loggers to harvest timber.
- ◇ When properly used and maintained, a portable skidder bridge has a life expectancy of 3-5 years.

Portable Skidder Bridge constructed of green hemlock; reinforced with 1" threaded steel rod and 10" screws and/or cabin spikes. Each bridge is made up of three panels.

**Rental Rate:** The rent for the above equipment is \$100 per month of use

**Equipment Options:**

- 16-foot Skidder Bridge
- 20-foot Skidder Bridge
