## ZRX ROLLER CRIMPER CORN PLANTER

## Merrimack County Conservation District

*Conserving the natural resources and  
cultural heritage of Merrimack County*

## NO-TILL CORN PLANTER INFORMATION

The ZRX roller crimper corn planter is a tow behind 4-row unit that plants 30" rows.

The machine crimps/kills the cover crop which will then act as a mulch, retaining moisture for the new crop, and reduce or eliminate the need for pesticides and herbicides while preventing nutrient runoff and soil erosion.

No-till planting eliminates the need for tillage, improves soil health, and mitigates the effects of severe rains resulting in sediment run-off.

## NO-TILL CORN PLANTER SPECIFICATIONS
