Merrimack County Conservation District
10 Ferry Street, Suite 211
Concord, NH 03301

The Merrimack County Conservation District (MCCD) is a non-regulatory public agency that works in partnership with the USDA Natural Resources Conservation Service (NRCS) to help land owners and users in Merrimack County manage their soil, water, forest, and other natural resources.

We serve residents, town officials, educators, members of nonprofit organizations, and others in the 27 towns that make up Merrimack County.

SKIDDER BRIDGE

Merrimack County Conservation District

*Conserving the natural resources and
cultural heritage of Merrimack County*

Portable skidder bridges are now widely accepted as a best management practice for controlling non-point source pollution associated with timber harvesting operations.

When properly installed, used, and removed, skidder bridges minimize stream bank and stream bed disturbance as compared with alternative devices, such as culverts or poled fords.

Portable skidder bridges are also economical because they are reusable, easy to install, and can be transported from job to job.

In addition, these bridges reduce the occurrence of sedimentation, channeling, and any degradation of aquatic habitat, while allowing loggers to harvest timber.

When properly used and maintained, a portable skidder bridge has a life expectancy of 3-5 years.

OTHER RENTAL EQUIPMENT

- Compact Constant Head Penetrometer (aka Amoozemeter)
- Mechanical Aerator
- Narrow Ash Wood/Lime Spreader
- Soil Penetrometer

If interested, please contact the District at (603) 223-6020 or info@merrimackccd.org.
