

# 2024 Mid-Season Cover Crop Seed Mix

## **Multi-Species Conservation Mixes for Soil Health**

The New Hampshire Conservation Districts in cooperation with the NH Soil Health Partnership are offering cover crop mixes specially designed to improve soil health on NH farms, at wholesale prices.

### **Order Now! Mid-Season Mix**

To be planted August 1 - September 1.

Good For: Following early vegetable and sweet corn crops.

Order Due Date: July 10, 2024.

Contains: Daikon radish, crimson clover, hairy vetch, forage oats, winter wheat, and phacelia.

Application Rate: 50 lbs per acre.

Price: \$80 per 50 lb bag.

### *Coming Soon: Late Season Mix*

To be planted September 15 - October 7.

Good For: Following silage corn and late vegetable crops.

Contains: Winter rye, forage oats, turnip.

Application Rate: 75 lbs per acre.

Item	Price	Quantity Ordered	Total Cost
Mid Season Cover Crop Mix, 50 pound bags	\$80.00 per bag		

Please make checks out to, and mail to:  
Merrimack County Conservation District  
10 Ferry Street Ste 211  
Concord, NH, 03301

### Order pick-up information:

Pick-up locations will be finalized after the order deadline for each mix. The more orders we receive, the more locations there will be. We will attempt make convenient arrangements; either dropping the order off at your farm, or providing a local pick up location, but you may need to drive to the Concord area to pick up your order if other arrangements aren't feasible. Please reach out by phone or email if you'd like to know more about pick-up arrangements.
